

Name	No.	Date	Description
------	-----	------	-------------

1957	Chempas	Feb 7	found several small insects in the nest. They were about 1/2 inch long.
------	---------	-------	---

*Handwritten notes in cursive script, likely a continuation of the field notes on the adjacent page.*

*Handwritten notes in cursive script, continuing the field notes. The text is mostly illegible due to fading and bleed-through from the reverse side of the page.*
